

BUS & TOURISM TRANSPORTATION (national and international) and VEHICULE RENTAL

DO YOU NEED EXTRA STORAGE SPACE FOR YOUR TRAVEL REQUIREMENTS?

Here is our solution, for the transport
of bicycles, luggage and equipment.

--- OUR BUS TRAILER ---

Gone, the need to organise a
second vehicle just for space;
thus an economical and
ecological solution.

Storage capacity: 25 'pro' bicycles!

25, that is the
number of
bicycles which
can be
attached to the
ramps for
transporting
**in full
security.**

*It is possible to transport up to 30 bicycles in total,
but we do not recommend this, since the extra
bicycles are not ramp-fixed, so are less well attached.*

Storage capacity in the absence of bikes

**15 m³ of space is available for luggage or
equipment** (this is space calculated without
having to remove the bicycle ramps).

Security:

This trailer respects **all the latest standards**
regarding bus transport security:

- robust (chassis and running gears);
- reliability of components (axles, brakes, bearings, adjustable hitch shaft/boom...)
- perfect, indeed excellent road holding;
- stability and manoeuvrability.

Technical characteristics:

Model : CARSPPEED M235RITRH VB2. 19 m³.

Exterior/interior box dimensions:
